SUGGESTED PROVIDERS

To help with your search for a work experience placement below is a list of some organisations that offered placements to our students last year. This list does not include the many parent owned organisations that offered placements to their children or placements that our students went to outside of this area. These organisations may or may not wish to offer placements this year. Feedback from students last year was clear that employers much preferred students going to speak to them in person, responses to email queries was poor.

PRIMARY SCHOOLS

Primary schools often take multiple students but are very popular and go quickly. Most of our primary schools insist that the student makes contact with the school and they often expect to meet the student before the placement begins. Students will be working with younger children and will receive training at All Saints before the placement begins.
